General information about Erasmus+ funding

In the document Financial Support in Call 2023 you will find the current contribution rates according to which the contributions for each mobility are calculated: participant, type of stay, length of stay, selected country. The financial contribution does not cover the total cost of the stay and travel, but it will certainly make the mobility significantly easier.

Further relevant information is also available in the Erasmus+ Programme Guide 2023 or on the website of the Czech National Agency for International Education and Research.

We look forward to your active participation!
